1. _____

2. _____

3. _____

4. _____

5. _____

Beginning Animal Expense

This is the beginning cost of your swine. To find the price per pound, if you paid a set price, divide the total cost by the initial weight at weigh-in.

Date Acquired	Color	Breed	Initial Weight	Price per Pound	Total Cost
					\$

Estimated Closing Animal Value

This is an estimate of your income if your swine sells at the average price from last year. To calculate, use the per pound average from the 2018 Hernando County Fair Sale. (\$2.70)

Date (Final Weigh-in Date)	Estimated Final Weight	2018 Average Price per Pound	Total Value (Est. Final Weight x 2018 Avg.)
		\$ 2.70	\$

Weight Records

Keep track of the weight gain of your animal. Be sure to include the beginning and final weight at record book check-in. Along with the beginning and ending weights, there should be at least two other entries. If you do not have access to scales, use a weight tape.

**Average Daily Gain (ADG) is calculated by dividing pounds gained since last weighing by number of days since last weighing.

Date	Weight	Pounds gained since last weighing	Number of days since last weighing	Average Daily Gain**
Initial Weigh-in 1-12-19				
Final Weigh-In 4-14-19				

Total Gain _____ (D)
(Total the pounds gained column)

Total Days on Feed _____ (E)
(93 days as stated in the rulebook)

Inventory of Supplies & Equipment

This is a record of what you have before you start your project, those items you purchase/receive during your project and what you have at the end of your project. This could include grooming equipment, show boxes, barns, pens, etc. Do NOT list consumable products such as shampoo. Depreciate 10% from beginning to close. If you no longer have the item at the end of the project, the value would be \$0.

** Depreciate: the total amount at the beginning of the project, times 10%, minus the depreciate value, will give you the ending value.

Ex: \$1.00 x 10% or .10= 0.10 \$1.00- \$0.10= \$0.90

Supplies/Equipment	Date Purchased	Beginning of Record		Depreciate 10%	End Value Record (depreciate 10% from beginning)
